## About Industry

The Indian Paper Industry is the 15<sup>th</sup> largest paper industry in the world and fastest growing market. It provides employment to 6 million people directly & indirectly, INR 50,000 million of foreign exchange. The per capita paper consumption in India at a little over 13 kg, is way behind the global average of 57 kg. **India's demand for paper is expected to rise 53% in the next five years.**

India's Paper and Print Industries show large potential. Demand for paper is growing, also due to an increase of demand in packaged products. Some of the paper mills are existing since several decades, which make up-gradation and investments into newer machinery necessary. This opens up opportunities for manufacturing companies in the sector. The print market in India is growing as well, mainly because of growing demand for high-qualitative products. The other two sectors projected to grow the most are packaging and published printing. Right from Packaging of food and beverages, fruits and vegetables, drugs and medicines, to highly dangerous products, packaging has led to greater specialization and sophistication over a period of years.

The robust growth in printing and publishing sector leaves a great opportunity for the Indian paper industry to grow at a pace which should be more than the GDP. Future looks more promising as the domestic demand is also on the rise.

## The Business Platform

Paperex event is always very well attended by large gathering of Paper Traders, Printers, Publisher, Converter and Paper Packaging Companies to explore the vast variety of papers at the show. **Over 32% trade visitors have visited for various types of Papers at the show.**

To serve all verticals of paper industry in a better way, the World's Largest Paper Show is enhancing the platform for Allied industries

## Exhibitor Profile

### Paper Printing

- Printing Machinery & Equipment
- Innovative Printing Technology & Services
- Knives, Blades & Holders
- Rollers
- Automation & Instrumentation
- Quality Control Equipment
- Pre-press Equipment and Software
- Print Finishing and Binding Equipment
- Lamination Machines
- Paper, Film, Foil, Inks
- Other Consumables

### Paper Publishing

- Pressing Stations
- Gluing Machines
- Book Embossing Presses
- Book Stackers
- Bookbinding Materials
- Publishing Software
- Magazines & Catalogue Production
- Bookbinding & Print Finishing Machinery
- Paper Sheet Counting and Sheet Folding Machines

### Paper Packaging

- Paper Packaging Machinery, Technology & Services
- Corrugated Box Making Machinery
- Corrugating Line
- Equipment and Components
- Folding Carton Processing Equipment
- Testing Equipment
- Adhesives
- Post-printing Processing Equipment
- Pallet Strapping and Handling Systems
- Paper Cups Manufacturing Equipment
- Paper Bag Manufacturing Equipment
- Wrapping and Packaging Machines
- Packaging Materials
- Fill and Seal

## Visitor Profile

### Brand Marketers

- Print Buyer/ Brand Owner/ Agencies
- Research and Development, Research Institutes
- Modern Trade Teams Designers & Consultants
- Ad Agencies
- Media Houses
- Packaging Designers and Specifiers
- Package Production Consultancy
- Designers for Corrugated Box & Related Packaging

### End Users Including

- FMCG Sectors
- E-commerce
- Medicine Producers
- Consumer Lighting & Electronic
- Garments & Footwear
- Automotive Sector

and many more...

## Growth Indicator

The global paper packaging market is estimated to reach  
**USD 306.73 billion by 2020** growing at a CAGR of 6.2%

Packaging Printing market size is expected to grow  
**USD 463.69 Billion by 2023**, at an estimated CAGR of 5.69%.

Indian packaging industry is expected to reach  
**USD 72 billion by 2020**

India has attained fifth largest position in print-packaging market.  
By 2020, revenues are expected to reach **USD 18.6 billion**
